

TechCongress

## Congressional Innovation Fellowship

Name

Email

What are your top 4 technical qualifications for this position (you can include degrees, programming languages, bootcamps, or other relevant training)?

Tell us about your qualifications for the Congressional Innovation Fellowship. Think about highlighting how your strengths and experience will help you to succeed in the program and in Congress. (Enter up to 150 words)

Rapid changes in technology have created a number of challenges for Congress. You are working in a Senator's office and have been asked to write a memo about a technology policy issue. Remarkably, the issue you've been asked to write about is an issue that you have experience with, but in which the Senator and his or her staff have very little expertise. (You can also pick an issue that you may have less experience with but that you find interesting and think is important for Congress.) Describe 1) the nature of the problem, and its significance (while taking care to explain any complex technical concepts) and 2) your solution and recommended course of action to advance your solution. (Enter up to 350 words)

Explain your reasons for wanting to be a Congressional Innovation Fellow. How will the fellowship 1) improve your capacity to effect change and 2) fit with your career plans? (Enter up to 150 words)
